

CyberShield: Securing Communities through Digital Awareness

Reported by: Nehal Mishra
Secretary, IEEE SIGHT AITR

1. Introduction

CyberShield: Securing Communities through Digital Awareness was a one-day interactive cybersecurity awareness event organized by the Acropolis Institute of Technology and Research IEEE SIGHT Student Branch Group **SBA04301S**, in collaboration with the IEEE MP Section SIGHT Chapter **SIGHT202** and the IEEE Student Branch **STB04301**.

The event aimed at educating students and community participants about online safety, personal data protection, and responsible digital practices. With expert-led sessions, hands-on workshops, and awareness activities, the event provided practical knowledge and strengthened cybersecurity awareness among attendees.

2. Objective of the Event

The primary objectives of the CyberShield event were to:

- Educate participants on digital hygiene and data protection
 - Explain emerging cyber threats and online vulnerabilities
 - Encourage ethical and responsible digital behavior
 - Combat misinformation and unsafe online trends
 - Equip attendees to promote cybersecurity awareness in their communities
-

3. Event Details

- **Date:** 10 October 2025
- **Time:** 11:30 AM IST – 04:50 PM IST
- **Venue:** II Block, Acropolis Institute of Technology & Research, Indore

- **Host Organizations:**
 - Acropolis Institute of Tech & Research SB SIGHT (**SBA04301S**)
 - Acropolis Institute of Technology and Research Student Branch (**STB04301**)
 - IEEE MP Section SIGHT (**SIGHT202**)
 - **Location:** Indore, Madhya Pradesh, India – 452010
-

4. Event Highlights

- Workshops on Digital Hygiene and Data Protection
 - Keynotes on emerging cyber threats
 - Hands-on technical session with real-time demonstrations
 - Panel discussions on ethics, cyber law, and digital responsibility
 - Community awareness challenge
-

5. Speaker Details

Speaker 1: Mr. Yuvraj Dighe

Topic: *Protecting Personal Data & Social Media Privacy*

Mr. Yuvraj Dighe is the Co-Founder of **SECASURE** and former **Product Security Engineer at Gojek**. He is globally ranked among the **Top 250 hackers on HackerOne** and is recognized for his expertise in ethical hacking, vulnerability research, and data privacy.

His session focused on personal data protection, safe digital habits, and understanding privacy risks related to social media platforms.

Speaker 2: Mr. Ajinkya Lohakare

Topic: *Emerging Cyber Threats & Societal Impact*

Mr. Ajinkya Lohakare serves as the **CTO of Ditto Security** and brings over **15 years of experience** in cybersecurity. He has collaborated with **international law enforcement agencies** and has delivered talks at multiple global security and tech conferences.

His keynote addressed modern cyber threat patterns, societal risks of cyber attacks, and approaches to strengthening digital resilience.

Speaker 3: Mr. Harsh Tonde

Topic: *Hands-on Workshop on FlutterFlow*

Mr. Harsh Tonde is an **Enterprise Customer Success Engineer at FlutterFlow**. He has extensive experience in software development, programming, UI/UX design, and technical community engagement.

His hands-on workshop introduced participants to FlutterFlow development tools, enabling them to build intuitive digital interfaces and understand the flow of secure app development.

6. Participation Overview

- **IEEE Members / Students: 66**
- **Guest Attendees: 5**
- **Total Participants: 71**

The event demonstrated excellent engagement, with participants actively interacting during demonstrations, Q&A sessions, and workshops.

7. Outcomes of the Event

CyberShield successfully enhanced digital awareness and equipped participants with essential cybersecurity and development skills. Key outcomes included:

- Improved understanding of cybersecurity fundamentals
 - Awareness of emerging cyber threats and preventive measures
 - Hands-on learning of app development tools through FlutterFlow
 - Greater sense of digital responsibility and awareness
 - Boosted confidence in identifying and reporting cyber risks
-

8. Vote of Thanks

The organizing team expressed heartfelt gratitude to all distinguished speakers, volunteers, faculty coordinators, and participants. Special thanks were given to IEEE MP Section SIGHT and the Acropolis Institute management for their support in enabling impactful community-centric programs.

9. Organizing Committee

- **Convener:** Dr. Namrata Tapaswi
Professor & HOD, CSE(AI&ML), AITR
- **Faculty Coordinator:** Prof. Lucky Saxena
IEEE MP Section SIGHT Chair, Faculty Advisor IEEE SIGHT AITR
- **Student Coordinator:** Anvesha Mishra (Chair, IEEE SIGHT AITR)

10. Event Poster and Photos

The poster is for a cybersecurity event titled 'CYBERSHIELD'. It features a dark blue background with a faint image of a person in a hoodie. At the top, there are logos for ACROPOLIS, IEEE SIGHT, IEEE Student Branch, and AITR. The text on the poster includes the event name, the organizing institutions, the date and time, the location, and the names of the convener and faculty coordinator. A QR code is also present for more information.
